

Artificial Intelligence and Machine Learning in Financial and E-Commerce Innovation: Fraud Detection, Forecasting, and Risk Management

Chapter	Title	Page No.
1	Introduction to Artificial Intelligence and Machine Learning in Financial and E-Commerce Ecosystems	12
2	Data Analytics, Big Data, and Predictive Modeling for Financial Decision-Making	41
3	Deep Learning Architectures and Neural Networks for Financial and E-Commerce Intelligence	71
4	AI-Enabled Cloud and Edge Computing for Secure Financial and E-Commerce Applications	97
5	AI-Based Fraud Detection Systems in the Financial Sector	125
6	Machine Learning Models for Credit Card and Online Payment Fraud Detection	152
7	E-Commerce Fraud Detection Using Behavioral Analytics and Deep Reinforcement Learning	178
8	Blockchain and Artificial Intelligence Synergy for Secure Digital Transactions	204
9	AI and Cybersecurity: Threat Intelligence and Risk Assessment in Financial Networks	229
10	Stock Market Forecasting Using Deep Learning and Reinforcement Learning Models	259
11	AI-Based Consumer Behaviour Prediction and Sales Forecasting in E-Commerce	286
12	Machine Learning for Dynamic Pricing and Revenue Optimization in E-Commerce Platforms	313
13	AI-Driven Risk Management and Compliance Strategies in Finance and E-Commerce	343
14	AI-Powered Supply Chain Optimization and Demand Forecasting in E-Commerce	369

15	Explainable AI and Model Transparency in Financial Decision Support Systems	398
